EDUCATION

UDAYANA UNIVERSITY | 2023 - Present

Bachelor of Information Technology

- Studying Information Technology with a focus on full-stack web development
- Developing web-based projects using React, Go, Firebase, and AI-powered technologies
- Actively involved in campus organizations, committees, and study groups to continuously improve skills and knowledge

SMK Negeri 1 Denpasar – Vocational High School | 2021 - 2023

Major in Multimedia

- Studied multimedia design, digital content creation, and visual communication
- Developed skills in graphic design, video editing, photography, and basic web design
- Participated in school projects and collaborative multimedia productions

PROJECTS

Karierly | 2025 - Present

Full-stack Web Developer

- Developed an Applicant Tracking System web platform using ReactJS, Golang, and PostgreSQL
- Built scalable frontend and backend features with REST API architecture and multi-tenant system
- Implemented AI-powered candidate screening and job matching using Google Gemini API
- Developed candidate pipeline, career page, and recruitment workflow management features

New Directions Agency - Guestlist.id | 2025 - 2026

Full-stack Web & Mobile Apps Development

- Developed and maintained a full-stack hospitality platform using React.js, Next.js, TypeScript, and Golang, with PostgreSQL and Supabase backend integrations.
- Built cross-platform mobile apps with Expo and integrated Firebase services to enhance user experience and system reliability.
- Collaborated with UI/UX and product teams to deliver scalable, high-quality features, improving performance and stability across web and mobile.

RASATA | 2025

Full-stack Android Developer

- Developed an Android-based application using Kotlin and Android Studio
- Implemented scalable application features and testing the performance of the apps
- Participated in LPPM-InnoPitch Innoverse 2025 through the RASATA project

Eaty-Eat | 2024

Full-stack Web Developer

- Developed backend and frontend systems using PHP and Laravel for a food ordering application
- Built API integrations and managed database functionality to support application features

TECHNICAL SKILLS

Frontend & Backend:

- ReactJS, HTML, CSS, Kotlin, JavaScript, TypeScript, Next.js, Expo, C#
- Golang, PHP, Laravel, REST API, JWT

Database & Infrastructure:

- PostgreSQL, MySQL, Firebase, Redis, Android Studio, Docker

Tools:

- Git, GitHub, GitLab, Postman, Figma

SOFT SKILLS

- Problem Solving
- Teamwork
- Adaptability
- Responsibility
- Attention to Detail
